Flowing energy

This unique property unites Asian tradition with a quiet environment without neglecting even the smallest detail. The construction style is based on Feng-Shui and separates the day and night areas so that the energy flows in a balanced way. The vertical and horizontal furniture, the colors, the intensity of the light and other variables that are taken into account in this space to get the most out of it.

Espacio y diseño

The house has a large living-dining room and a kitchen with a terrace and views of the beautiful landscape. On the ground floor we also have a Philip Starck bathroom and two bedrooms. A beautiful solid wood staircase to the upper part of the house with a main room with a dressing room and two more rooms. In the basement there is an independent apartment with bathroom and kitchen, ideal for hosting guests. It can also be used as a playroom or gym. The house has a large plot with a 48m2 pool, chill out area, covered summer terrace and barbecue.
