Paradise in Sant Gervasi

The location is undoubtedly unbeatable, in the much-desired district of Galavany in the Sant Gervasi neighbourhood, a quiet and residential area, where everything turns round the Galvany market and the adjacent commercial establishments. An ideal place to enjoy the tranquillity and comfort of a quiet residential area, while remaining within easy reach from all the necessary amenities. A true paradise in the heart of Barcelona.

A historical beauty

The building dates back to the 1930s, a noble property with a neoclassical architectural style. It has been completely reformed by the prestigious Isa de Luca studio, maintaining the original elements of the flat that provide class and character, such as the high ceilings with plasterwork, arches, high doors and all the wooden carpentry, which has been carefully restored. Every detail has been taken care of to the maximum, creating a warm and cosy atmosphere.
