

APARTMENT BY RAMÓN ESTEVE ESTUDIO

Endless design in La Roqueta

Valencia, España

The property is located in the city center of Valencia, in the La Roqueta neighborhood. The shopping district and the old town, the Carmen neighborhood, are within walking distance. All types of restaurants and shops are close by, as are theaters and other cultural activities. Its location is also convenient for traveling by car.

All design

The home, designed by Ramón Esteve Estudio, stands out for its harmonious selection of materials and finishes. Through the entrance door, we enter the hall with an oak-finished hall closet, which leads to the custom-built kitchen with water-repellent Porcelanosa finishes and high-end Pando appliances. This fully equipped kitchen-diner connects to the exterior-facing living and dining room with views of a park and the MUVIM museum.

All elegance

In the sleeping area, we find two double bedrooms with an elegant and contemporary design. The wooden flooring joins the wall to form a headboard. The built-in wardrobes are decorated with textiles and illuminated with LED lights. The bathroom is fully equipped with a shower made of Porcelanosa materials, porcelain stoneware, and harmonious whites. Custom-made faucets, lighting, and furniture are included. Access to the master bedroom is through a pivoting door that leads to a large dressing room, which leads to the open-plan en-suite bathroom.
