

VERDE VILLA

A luxurious oasis in the countryside

Mallorca, Islas Baleares

Access to the house is through a patio that connects the central house with various external rooms, the garage and the gallery. In the entrance hall there is a staircase that gives access to the upper floor and a small corridor that connects the hall with a courtesy bathroom and an adjacent room. Property with Tourist Licence included.

Different environments

The rear area of the ground floor, with a larger area, has been conceived as a space whose large dimensions allow the creation, through the furniture, of several differentiated environments: living room, dining room and living room with fireplace.

Balearic immensity

On the first floor there is a small and comfortable reading room and three double bedrooms with en-suite bathrooms. The main room has a private terrace overlooking the patio of the house. The other two rooms have access to a large terrace of 34 m2.
