Natural materials

The villa consists of a first floor with four bright bedrooms, a ground floor with a large dining/living room open to the kitchen and garden and a large basement with space for 2 cars, laundry and technical facilities. The basement has another large room for whatever use you wish to make of it. The materials used for the construction are all noble and natural, which gives Villa Oro a great warmth and an atmosphere of well-being.

Fully equipped

Living room is connected to the open kitchen. A wooden staircase leads to the top floor with a main bedroom and bathroom suite. A second bedroom with views to the Tramuntana sierra. These two bedrooms are separated by two more rooms with a large bathroom. Easy and direct access to the garage. Heating floors and alarm system included.
