Taste for the exquisite

The construction of it is that of a great idea of architecture, timeless, focused on the mountain, with design and solidity. The interior consists of 2 fireplaces, a sophisticated living room that rises through a balcony towards a library where the skylight lets in a sun that bathes the house. Summer at home is a gift, autumn a privilege.

Plenty of room

It has a useful 630 m2 and a large plot of 1,240 m2. It consists of 5 double rooms, 2 of them with bathroom suites. All the windows have double glazing, PVC shutters that marry perfectly with the beautiful exposed brick walls and the ivory marble floor. It includes pre-installation of music throughout the house, a swimming pool, wine cellar and a fitness room, as well as a "hobby" room.
